

QUALITY AND ENVIRONMENTAL POLICY

COMPAÑÍA DE DISTRIBUCIÓN INTEGRAL LOGISTA SAU

Logista provides its clients with a comprehensive, specialized and **top-quality** distribution service.

Logista is committed to the highest level to develop its activity in a **sustainable** way and respect for the environment in all its activities, applying the most respectful technologies with nature and **promoting maximum environmental responsibility** in all its actions and among its employees.

Logista's Top Management has established in writing its Quality and Environment Policy, which includes:

-  **1. Keep the Integrated Quality and Environment Management System (SIGCMA)** updated, in accordance with the UNE-EN ISO 9001: 2015, UNE-EN ISO 14001: 2015 Standards.
-  **2. Improve continuously the effectiveness of the Quality and Environment System** and the degree of satisfaction provided to the client through clearly specific and controlled processes continuously, as a means of identifying, evaluating and managing risks and opportunities for improvement, as well as establishing objectives consistent with the purpose and Logista context.
-  **3. Comply with the legal requirements** stemmed from the current legislation applicable to the Organization, as well as with the **voluntary requirements** that Logista wants to sign.
-  **4. Provide the essential resources** for the implementation and control of the SIGCMA, as well as for the improvement of its processes, including the necessary human resources, specialized knowledge, technology and financial funds.
-  **5. Preserve and develop material and human resources.** To this end, Logista considers the professional capacity of workers in terms of quality and the environment, ensuring that they have the training, information and instructions necessary for the proper development of their work activity.
-  **6. Guarantee the sustainable use of resources**, increase the efficiency of their use, and promote the consumption of materials that ensure greater environmental protection. Likewise, proper management will be carried out to prevent pollution and minimize the environmental impact generated by our activity, guaranteeing continuous improvement in our environmental behavior.
-  **7. Promote collaboration, participation, training and information** within the company and in all its activities, motivating the entire human team, including suppliers, to work in accordance with this Policy and the requirements of the SIGCMA.
-  **8. Review the degree of effectiveness** of the implemented Management System **periodically**, in order to detect weak points and be able to adopt the necessary and improvement actions, as well as document the progress made.
