Translation of a report originally issued in Spanish based on our work performed in accordance with the audit regulations in force in Spain and of financial statements originally issued in Spanish and prepared in accordance with the regulatory financial reporting framework applicable to the Company in Spain (see Notes 2 and 14). Independent Auditors' Report on Financial Statements

To the Shareholders of Compañía de Distribución Integral Logista Holdings, S.A.,

Report on the Financial Statements

Opinion

We have audited the financial statements of Compañía de Distribución Integral Logista Holdings, S.A. (the Company), which comprise the balance sheet as at 30 September 2019, and the income statement, statement of changes in equity, statement of cash flows and notes to the financial statements for the year then ended ("2019").

In our opinion, the accompanying financial statements present fairly, in all material respects, the equity and financial position of the Company as at 30 September 2019, and its results and its cash flows for the year then ended in accordance with the regulatory financial reporting framework applicable to the Company (identified in Note 2.1 to the financial statements) and, in particular, with the accounting principles and rules contained therein.

Basis for Opinion

We conducted our audit in accordance with the audit regulations in force in Spain. Our responsibilities under those regulations are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Company in accordance with the ethical requirements, including those pertaining to independence, that are relevant to our audit of the financial statements in Spain pursuant to the audit regulations in force. In this regard, we have not provided any services other than those relating to the audit of financial statements and there have not been any situations or circumstances that, in accordance with the aforementioned audit regulations, might have affected the requisite independence in such a way as to compromise our independence.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	How the Matters Were Addressed in the Audit
<p><i>Valuation of non-current investments in Group companies</i></p> <p>At 30 September 2019, the Company was the sole shareholder of Compañía de Distribución Integral Logista, S.A.U., as indicated in Note 5.1 to the financial statements.</p> <p>This investment represents the principal item in the Company's financial statements, accounting for approximately 94% of the total assets.</p> <p>As indicated in Note 4.1 to the financial statements, the Company assesses the existence of possible impairment losses by comparing carrying amount with recoverable amount, which is the higher of fair value less costs of disposal and the present value of the future cash flows from the investment. The measurement of the aforementioned investment requires the use of significant judgements and estimates by management, both in determining the valuation method and in considering the key assumptions established for each method chosen.</p> <p>The materiality of the investment owned, which amounted to EUR 975 million at the reporting date, led us to determine the situation described as a key matter in our audit.</p> <p>As described in Note 4.1 to the financial statements, management concluded that the aforementioned investment is not impaired.</p>	<p>Our audit procedures included, among others, a review of the process implemented by the Company to assess the potential impairment of the investment in Compañía de Distribución Integral Logista, S.A.U.</p> <p>We reviewed the cash flow projections of the principal businesses integrated in the investment and its subsidiaries, and the process used to prepare them, which included comparing the projections with the latest plans approved by the Board from which they are derived. Additionally, we have made a contrast with the trading value at closing.</p> <p>Also, we evaluated the methodologies used by the Company, concluding that management's approach is consistent and is supported by the available evidence.</p> <p>As a result of our procedures, we consider that management's conclusions regarding the absence of indications of impairment are adequate and are supported by the available evidence.</p> <p>Lastly, we ascertained that the disclosures included in Note 5.1 to the accompanying financial statements in connection with this matter are in conformity with the applicable accounting regulations.</p>

Other Information: Directors' Report

Other information comprises only the directors' report, the formulation of which is the responsibility of the Parent company's directors and does not form an integral part of the annual accounts.

Our audit opinion on the annual accounts does not cover the directors' report. Our responsibility regarding the information contained in the directors' report is defined in the legislation governing the audit practice, which establishes two distinct levels in this regard:

- a) A specific level applicable to certain information included in the Annual Corporate Governance Report, as defined in article 35.2 b) of Audit Act 22/2015, that consists of verifying solely that the aforementioned information has been provided in the directors' report and if not, we are required to report that fact.
- b) A general level applicable to the rest of the information included in the directors' report that consists of evaluating and reporting on the consistency between that information and the annual accounts as a result of our knowledge of the Entity obtained during the audit of the aforementioned financial statements and does not include information different to that obtained as evidence during our audit, as well as evaluating and reporting on whether the content and presentation of that part of the management report is in accordance with applicable regulations. If, based on the work we have performed, we conclude that material misstatements exist, we are required to report that fact.

On the basis of the work performed, as described above, we have ascertained that the information mentioned in paragraph a) above has been provided in the directors' report and that the rest of the information contained in the directors' report is consistent with that contained in the annual accounts for the 2019 financial year, and its content and presentation are in accordance with the applicable regulations.

Responsibilities of the Directors and of the Audit and Control Committee for the Financial Statements

The directors are responsible for preparing the accompanying financial statements so that they present fairly the Company's equity, financial position and results in accordance with the regulatory financial reporting framework applicable to the Company in Spain, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The audit and control committee is responsible for overseeing the process involved in the preparation and presentation of the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the audit regulations in force in Spain will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the audit regulations in force in Spain, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the use by the directors of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the entity's audit and control committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit and control committee with a statement that we have complied with relevant ethical requirements, including those regarding independence, and we have communicated with it to report on all matters that may reasonably be thought to jeopardise our independence, and where applicable, on the related safeguards.

From the matters communicated with the audit and control committee, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters.

Compañía de Distribución Integral Logista Holdings, S.A.

We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter.

These financial statements were formally prepared by the Directors in accordance with the regulatory financial reporting framework applicable to the Company, which consists of:

- a. The Spanish Commercial Code and all other Spanish corporate law.
- b. Law on Corporations consolidated text.
- c. The Spanish National Chart of Accounts approved by Royal Decree 1514/2007 and the amendments thereto introduced by Royal Decrees 1159/2016 and 602/2016.
- d. The mandatory rules approved by the Spanish Accounting and Audit Institute in order to implement the Spanish National Chart of Accounts and the relevant secondary legislation.
- e. All other applicable Spanish accounting legislation.

2.2 Fair presentation

The financial statements for 2019, which were obtained from the Company's accounting records, are presented in accordance with the regulatory financial reporting framework applicable to the Company and, in particular, with the accounting principles and rules contained therein and, accordingly, present fairly the Company's equity, financial position, results of operations and cash flows for the corresponding period. These financial statements, which were formally prepared by the Company's Directors, will be submitted for approval by the General Meeting, and it is considered that they will be approved without any changes.

The financial statements for 2018 were approved at the Annual General Meeting held on 26 March 2019.

2.3 Accounting principles applied

The directors formally prepared these financial statements taking into account all the obligatory accounting principles and standards with a significant effect hereon.

2.4 Key issues in relation to the measurement and estimation of uncertainty

In preparing the accompanying financial statements estimates were made by the Company's Directors in order to measure certain of the assets, liabilities, income, expenses and obligations reported herein. These estimates relate basically to the following:

- The calculation of allowances for financial assets (see Note 4.1).
- The assessment of the long-term obligations to employees of the companies in the Group headed by the Company (see Note 4.4).
- The assessment of the income tax expense (see Note 4.3).

Although these estimates were based on the best information available at the close of 2019, it is possible that future events may require these to be raised or lowered in the coming years. This would be done prospectively, recognising the effects of the changes in accounting estimates in the relevant future financial statements.

2.5 Comparative information

The information relating to 2018 included in these notes to the financial statements is presented solely for comparison purposes with that relating to 2019.

2.6 Grouping of items

Certain items in the balance sheet, income statement, statement of changes in equity and statement of cash flows are grouped together to facilitate their understanding; however, whenever the amounts involved are material, the information is broken down in the related notes to the financial statements.

2.7 Materiality

In preparing these financial statements the Company omitted any information or disclosures which, not requiring disclosure due to their qualitative importance, were considered not to be material in accordance with the concept of Materiality defined in the conceptual framework applicable to the Company.

3. Distribution of profit

The proposed distribution of the profit for 2019, amounting to EUR 165,539 thousand, that the Company's Directors will submit for approval by the shareholders at the Annual General Meeting is as follows:

	Thousands of Euros
To legal reserve	9,074
Dividends	107,527
Interim dividend (Note 6.4)	48,938
	165,539

Pursuant to the legislation in force, the Company assessed the liquidity statement on the date of approval of the interim dividend. Based on this assessment, on 23 July 2019 the Company had EUR 102 million available for drawdown against the credit line granted by Compañía de Distribución Integral Logista, S.A.U. to the Company (the drawable limit of which is EUR 115 million and against which the Company has drawn down EUR 13 million).

4. Accounting policies and measurement bases

The principal accounting policies and measurement bases used by the Company in preparing its financial statements for 2019, in accordance with the Spanish National Chart of Accounts, were as follows:

4.1 Financial instruments

4.1.i Financial assets

Equity investments in Group companies

Group companies are deemed to be those related to the Company as a result of a relationship of control.

These investments are measured at cost or contribution value net, where appropriate, of any accumulated impairment losses. The method used to determine the value of the shares received through the non-monetary contribution made by Altadis, S.A.U. was to maintain the carrying amount of the contributed shares in the separate financial statements of the contributing company at the date of contribution.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the corresponding write-down is recognised through the income statement.

Value in use is calculated on the basis of an estimate of the future cash flows generated by each cash-generating unit, discounted at a rate which reflects the current value of money and the specific risks associated with the assets. Fair value is considered to be the value at which the asset in question could be disposed of under normal conditions, and it is determined on the basis of market data, comparable transactions, etc.

Impairment losses and, where appropriate, their reversal, are recognised as an expense or as income, respectively, in the income statement.

The Company assesses the existence of possible impairment losses by comparing carrying amount with recoverable amount, which is the higher of fair value less costs of disposal and the present value of the future cash flows from the investment. Additionally, the Company has made a contrast with the trading value at closing.

At 30 September 2019 and 2018, the Company's Directors had not tested for impairment the ownership interest in Compañía de Distribución Integral Logista, S.A.U. (see Note 5.1).

Loans and receivables

The loans granted are measured at their amortised cost, which is understood to be the initial value plus accrued interest and repayment premiums based on the effective interest rate, minus the principal and interest repayments, while also considering possible reductions due to impairment or uncollectibility.

Cash and cash equivalents

Cash includes both cash and demand deposits.

The Company derecognises a financial asset when it matures and collection is made or when the rights to the future cash flows have been transferred and substantially all the risks and rewards of ownership of the financial asset have been transferred.

4.1.ii Financial liabilities

Trade payables, loans received and other accounts payable are initially recognised at fair value, which generally coincides with their nominal value, reduced by transaction costs, and are subsequently measured at amortised cost.

The Company derecognises financial liabilities when the obligations giving rise to them cease to exist.

4.1.iii Equity instruments

Equity instruments issued by the Company are recognised in equity at the proceeds received, less issue and arrangement costs.

The acquisition by the Company of treasury shares is disclosed separately at cost as a reduction of equity in the balance sheet. No gain or loss is recognised in income statement on transactions involving own equity instruments.

4.2 Revenue and expense recognition

Revenue and expenses are recognised on an accrual basis, i.e. when the actual flow of the related goods and services occurs, regardless of when the resulting monetary or financial flow arises. Revenue is measured at the fair value of the consideration received, net of discounts and taxes.

Interest income from financial assets is recognised using the effective interest method and dividend income is recognised when the shareholder's right to receive payment has been established. Interest and dividends from financial assets accrued after the date of acquisition are recognised as income.

4.3 Income tax

Tax expense (or tax income) comprises current tax expense (or current tax income) and deferred tax expense (or deferred tax income).

The current income tax expense is the amount payable by the Company as a result of income tax settlements for a given year. Tax credits and other tax benefits, excluding tax withholdings and pre-payments, and tax loss carryforwards from prior years effectively offset in the current year reduce the current income tax expense.

The deferred tax expense or income relates to the recognition and derecognition of deferred tax assets and liabilities. These include temporary differences measured at the amount expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities and their tax bases, and tax loss and tax credit carryforwards. These amounts are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled.

In general, deferred tax liabilities are recognised for all taxable temporary differences. However, deferred tax assets are recognised to the extent that it is considered probable that the Company will have taxable profits in the future against which the deferred tax assets can be utilised.

Deferred tax assets and liabilities arising from transactions charged or credited directly to equity are also recognised in equity.

The deferred tax assets recognised are reassessed at the end of each reporting period and the appropriate adjustments are made to the extent that there are doubts as to their future recoverability. Also, unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that they will be recovered through future taxable profits.

From 2017 onwards, the Company is the parent of the tax group, with tax Group number 548/17 assigned.

1.1 Research and Development activities

The Company did not make any investments in research and development activities in the fiscal year 2019.

1.2 Treasury shares

At 30 September 2019, the Company holds 486,013 own shares.

1.3 Outlook for the Company

As the Company is a holding company, the Company's outlook is linked to the performance of the companies that form the Logista Group.

2. RISK EXPOSURE

The Corporate Risk Management System of the Company is set forth in the Risks Management General Policy of September 29th 2015, with the purpose of providing to the Business Managers/Corporate Directorates, a holistic view, improving the Management capacity to manage risks in an efficient way and minimizing the impact in case the risks materialize.

In this Policy, different risk categories or factors are defined, in which, as part of the financial risks category, tax risks related to the current Company's activity are included.

Likewise, Fiscal strategy described at Fiscal Policy of Logista Group, of which the Company is the head, states, as part of its key objectives the following:

- To minimize the fiscal risks associated with the operations and strategic decisions of each company, ensuring that the tax payable is appropriate and in proportion to the operations of the Businesses, the material and human resources, and the business risks of the Group.
- To define the fiscal risks and determine the Objectives and Activities of internal Control, and to set up systems for reporting fiscal compliance and for keeping documentary records, integrated with the Group's General Framework of Internal Control.

On the other hand, the Group's Internal Control General Policy of April 25th, 2017, establishes a general action framework for controlling and management of internal and external risks of any nature, which may affect the Company, in accordance with the risk map in place at all times in the achievement of its objectives (Corporate Governance risks, market risks, financial risks, regulatory risks, business risks, operational risks, penal risks and reputational risks, among others).

The Company, considering its nature as entity of public interest due to its shares are trading in the Stock Market, and being the holding company of the Logista Group, presents as main risk the risk derived from a possible incompliance of the regulatory framework to which it is subject. However, the Company presents a low tolerance respect this risk and has established policies, procedures and controls that allow to identify, prevent and mitigate this risk, as well as to comply with the obligations imposed by the various legislations applicable to it.

On the other hand, from a financial perspective, the main financial risks that the Company faces can be summarized in:

The Company's main financial assets are cash and cash equivalents and credits to Group's companies that represent the Company's maximum exposure to credit risk. In general, the Company deposits its cash and cash equivalents in entities holding a high credit rating. Likewise, the Company presents an exposure to credit or counterparty risk with Imperial Brands by virtue of the subscribed treasury agreements.

The Company estimates that at 30 September 2019 the level of exposure to credit risk of its financial assets is not significant.

To ensure the liquidity and be able to pay all its payments commitments derived from its usual activities, the Company maintains enough cash and cash equivalents, as well as, credit lines through the subscribed treasury agreements, ultimately, with Imperial Tobacco Enterprise Finance Limited, entity belonging to the Imperial Brands PLC Group.

Respect the exposure to interest rate risk, considering the no-financial debt of the Company, the Management considers the impact from a potential increase in interest rates which could have in the attached annual accounts is not significant.

Also, the level of exposure to the net equity and the P&L account in terms of future changes in the current exchange rates is not relevant.

From a fiscal point of view, the main risk that the Company faces is derived from the possibility of modifications in the tax regulations, than might impact directly in the results and cash management of the Company.

Associated risks and expected impacts on the business's strategy and activities due to the decision of UK to leave the European Union

The Company belongs to the Imperial Brands Group that has its registered office in the United Kingdom. In this sense, the Company has valuated the risk, as well as the possible impact that it might occur as the consequence of the exit of the United Kingdom from the European Union. As the Company has not significant investments, directly or indirectly, in foreign companies that operate in currency other than the

euro, and does not carry out significant operations in countries with currency other than the euro, the possible effects from a cooling British economy, and/or from a possible currency volatility, might not have a highly impact in the development of the Logista Group's activities.

On the other hand, the contribution of the share capital by the shareholder Imperial Brands, as well as the credit line that maintains with the majority shareholders is in euro currency. In that sense, the Company does not have any type of financing by its shareholder in euros or in sterling. Therefore, it is not impacted from interest rate variations.

Uncertainty on the European directives on taxation remains, pending of the impact assessment, as well as the application of EU freedoms that will ultimately depend on the exit model of the United Kingdom of the EU.

3. USE OF FINANCIAL INSTRUMENTS

The Company does not perform transactions with financial instruments that might affect the correct measurement of the assets or liabilities recognised in the balance sheet.

Directors' Appointments

If during the term for which a Director was elected that Director ceases to be a Director of the Company, for any reason, the Board of Directors, to fill the vacancy, may appoint a Director by co-option.

The co-option will be governed by the provisions of law, with the Director appointed by the Board not necessarily being required to be a shareholder of the Company.

The appointment of Directors by the system of co-option in accordance with the provisions of law will be effective until the first following General Meeting, which must ratify the appointment or designate the person that thereafter is to fill the position, or until the holding of the next following General Meeting, if the vacancy occurs after the call of the General Meeting, and before it is held.

Proposal of appointment or re-election of Directors corresponds to the Appointments and Remuneration Committee, in the case of independent Directors, and to the Board of Directors itself, in other cases.

A proposal of appointment, re-election or removal of any non-independent Director in addition must be preceded by a report of the Appointments and Remuneration Committee.

The proposal in any event must attach a justifying report of the Board of Directors, which evaluates the competence, experience and merits of the proposed candidate, which will be attached to the minutes of the General Meeting or of the Board of Directors itself.

The provisions of this section also are applicable to individuals who are appointed as representatives of a Director that is a legal person. The proposal of the individual representative must be submitted to a report of the Appointments and Remuneration Committee.

The Board Regulations state the following competencies (among others) for the Appointments and Remunerations Committee (Articles 18.2 a), c) and d) of the Regulations):

- Evaluating the skills, knowledge and experience required on the Board. For these purposes, it will define the functions and skills required of candidates that are to fill each vacancy and will evaluate the time and dedication necessary for them to be able to effectively perform their duties.
- Making proposals to the Board of Directors of independent Directors to be appointed by co-option or for submission to decision by the General Shareholders Meeting, and proposals for re-election or removal of those Directors by the Meeting.
- Inform about the appointment, ratification, reappointment and removal of non-independent Directors, as well as the appointment and removal of the Managing Director/s and of the members of the Executive Committee, and the permanent delegation of its relevant faculties to them.

Eligibility. Incompatibilities.

The Board of Directors and the Appointments and Remuneration Committee, within the scope of their competencies, shall endeavour to ensure that the candidates are selected from among persons of recognised solvency, competence and experience, and that have the necessary

availability for the proper performance of their duties as Directors, and shall be particularly rigorous in choosing the persons to cover the posts of Independent Directors.

In the case a Director is a legal entity, the requirements indicated will also be applicable to the individual representing the organisation, and, in addition, the Director duties set out in these Regulations will also be enforceable on a personal level.

Persons involved in prohibition or legal incompatibility processes may not be appointed as Directors of the Company.

Moreover, the Directors of the Company may become part at the same time, and with the limitation provided by Law, of a maximum of nine boards of directors of listed companies other than the Company (Article 23 of the Board of Directors' Regulations)

Re-election of Directors

The proposals for re-election of Directors that the Board of Directors decides to present to the General Meeting of Shareholders shall be subject to a formal procedure, which must necessarily include a report issued by the Appointments and Remuneration Committee in which the quality of work and dedication to the post of the proposed Directors during the preceding term of office is evaluated.

The Board of Directors shall endeavour to ensure that the External Directors who are re-elected do not always remain assigned to the same Committee (Article 24 of the Board of Directors' Regulations).

Term of office

Directors shall occupy their post during the period established in the By-Laws, which shall in no case exceed four years, and may be re-elected.

Directors appointed by the Board of Directors by co-opting to fill a vacancy pursuant to these Regulations shall occupy their posts until the date of the next General Meeting of Shareholders, unless their appointment is ratified by such General Meeting of Shareholders (Article 25 of the Board of Directors' Regulations).

D.1 Describe, if applicable, the procedure for approval of related-party and intragroup transactions.

Article 39 of the Board of Directors' Regulations state that the Board formally reserves the knowledge and authorization, previous report of the Audit and Control Committee, of Related-Party Transactions (Transactions of the Company with Directors or with significant shareholders), except for such matters that are legally within the competence of the General Meeting. To authorise, if appropriate, the Related-Party Transactions, the Board of Directors first and foremost shall serve the interests of the Company, evaluating the transaction from the standpoint of equitable treatment of shareholders and market conditions.

No authorisation of the Board of Directors shall be required in connection with Related-Party Transactions that simultaneously satisfy the following three conditions: (i) that they are conducted under contracts whose terms and conditions are standardised and apply on an across-the-board basis to many customers; (ii) that they are conducted at prices or rates established generally by the party acting as supplier of the goods or services in question; (iii) that the amount thereof does not exceed one per cent of the Company's annual revenues.

In the case of ordinary transactions that are not subject to the Board's authorisation, a general authorisation of the line of operations and its execution conditions shall be sufficient.

The Directors affected by the related-party transaction, either personally, or to the shareholders whom they represent in the Board, in addition to not intervene in the decision or exercise or delegate their right to vote, they will be absent from the meeting room, while the Board deliberates and votes on the related-party transaction.

The Company shall report on the mentioned related-party transaction mentioned, in the Annual Report on Corporate Governance, in the regulated financial information, and in the notes to the Financial Statements, to the extent by Law.

Likewise, Article 34 of the Board Regulations states that Directors shall report to the Board of Directors any situations involving a direct or indirect conflict, either personally or through persons linked to him, with the interests of the Company or the companies in its Group.

Also, the Framework Agreement dated 12 June 2014, signed between the Company and Imperial Brands (formerly named Imperial Tobacco Group) establishes that all Related-Party Transactions and, in general, any transaction that may pose a conflict of interest affecting the Group and the IB Group should be arranged under market conditions that, according to the circumstances, would have been reasonably stipulated by two independent operators and in accordance with the principle of equal treatment of shareholders and the principle of neutrality established in that same Framework Agreement.

Related persons are the persons described in article 231 of the Spanish Companies Act ("Ley de Sociedades de Capital").

The Director should report any stakes held directly or indirectly and personally or by related persons in the share capital of a company with the same, similar or

complementary activity that constitutes the corporate purpose, as well as positions or functions they discharge, as well as performing either personally or for another party similar or complementary activities, to the ones which constitutes the social purpose of the Company.

Directors should abstain in engaging in professional or commercial transactions with the Company unless the situation of conflict of interests is reported previously and the Board, subject to a report from the Audit and Control Committee, approves the transaction.

Furthermore, Section 7 of the Company Internal Regulations for Conduct in the Securities Markets establishes the conduct regulations regarding conflicts of interest. In particular, the Company Internal Regulations for Conduct establishes the general principles of independence, abstention and confidentiality that persons subject to it must observe. These Regulations also state the procedure that persons subject to them must follow to previously report any situation of conflict of interest. These transactions must be previously authorised by the Company Board of Directors, in case of conflict of interests affecting Directors and Senior Management of the Company, and by the Company CEO, in all other cases.

Also, the Framework Agreement provides that when a related-party transaction personally affects a Director or the shareholder he represents at the Board, he must abstain from intervening in the decision, as well as from voting or delegating his vote. He will also leave the Board meeting room, while the Board deliberates and votes on such related transaction. Nevertheless, the Proprietary Directors appointed by or representing Imperial Brands must be present in each debate and voting regarding the Framework Agreement or the Treasury Agreements (even though they will not be able to vote regarding these matters).

E RISK MANAGEMENT AND CONTROL SYSTEMS

E.1 Explain the scope of the company's Risk Management and Control System, including tax compliance risk.

The Corporate Risk Management System of the Company and its subsidiaries (hereafter, "the Group" or "Logista Group") is set forth in the Risks Management General Policy of September, 29th 2015.

The Risk Management General Policy, applicable both to each of the businesses and countries, and Corporate areas of the Group, sets up the guidelines to integrate all the information originating from the different functions and operations of the Group, with the purpose of providing to the Business Managers/Corporate Directorates, a holistic view, improving the Management capacity to manage Risks in an efficient way and minimizing the impact in case the Risks materialize.

The Policy defines different Risk categories, in which, as part of the financial Risks category, tax Risks related to the current Group activity are included.

Therefore, Fiscal strategy described at Fiscal Policy of the Group, states, as part of its key objectives the following:

To minimize the fiscal Risks associated with the Company's operations and strategic decisions, thus ensuring that the tax payable is appropriate and in proportion to the operations of the Businesses, the material and human resources, and the business Risks of the Group.

To define the fiscal Risks and determine the Objectives and Activities of Internal Control, and to set up systems for reporting fiscal compliance and for keeping documentary records, integrated with the Group's General Framework of Internal Control.

On the other hand, the Group's Internal Control General Policy of April 25th, 2017, establishes a general action framework for controlling and management of internal and external Risks of any nature, which may affect the Logista Group, in accordance with the Risk Map in place at all times in the achievement of its objectives (Corporate Governance Risks, market Risks, financial Risks, regulatory Risks, business Risks, operational Risks, penal Risks and reputational Risks, among others).

E.2 Identify the bodies within the company responsible for creating and executing the Risk Management and Control System, including tax compliance risk.

The Board of Directors

Among its non-delegable faculties, the Board of Directors has to approve the general policies and strategies of the Group and among them, the control and Risk Management Policy, including tax Risks, as well as the supervision of the internal reporting and control systems, in particular those for financial information.

Risk and Control Management Policy will identify, at least, (i) different Risk categories, financial and not financial (operational, technological, legal, social, environmental, political and reputational, among others), for which the Group is exposed to, including those financial or economical, contingent liabilities and other off-balance Risks; (ii) the determination of the Risk level that the Group considers acceptable; (iii) predefined measures to mitigate impact of the Risks identified, in case they would materialise, and (iv) information and Internal Control Systems that will be used to control and manage those Risks, including contingent liabilities or off-balance Risks.

The Audit and Control Committee

Among others, the Audit and Control Committee shall have the following competencies in relation to the supervision of the management and control of Risks, according to its Regulation, dated on December 19th, 2017:

- i. Supervising the effectiveness of the Company's Risk systems, reviewing the appointment and replacement of the managers, and also, when appropriate, submitting recommendations or proposals to the Board of Directors, and the corresponding period for their following-up.
- ii. Supervising the Risk control and management unit, which will have, among other duties, that of ensuring that the Risk control and management systems are functioning correctly, and in particular, that the major Risks to which the Company is exposed are correctly identified, managed and quantified; that of actively participating in the preparation of Risk strategies and in key decisions about their management; and that of ensuring that the Risk control and management systems are mitigating Risks effectively within the framework of the policy established by the Board of Directors.

The Internal Control Committee

This Committee depends on the Audit and Control Committee of the Board of Directors, hierarchical and functionally.

The Committee has the following basic functions, among others: To promote and coordinate the work for annually updating the Group's Risk Map and propose approval to the competent bodies.

In relation with the Penal Risks Prevention Model, the Internal Control Committee also acts as Unit of Control and Follow-Up of Penal Risks, in relation with the direct penal responsibility of the legal persons, established by Spanish laws.

The Logista Group Internal Control Committee is comprised of the Corporate Financial Director, who acts as Chairman, the Internal Control Director, the Human Resources Director, a representative of the Legal Department, the Corporate Resources Director as well as the General Managers of the three most important businesses of the Group, acting the Internal Control Director as Secretary.

The Corporate Internal Audit Directorate

The Corporate Internal Audit Directorate has the responsibility of:

- Preparing the Group's Procedures and criteria for the Risks Management, and controlling those approved by the Board of Directors for the Risks Management.
- Coordinating the development and regular updating the Group's Risks Map and regularly reporting to the Audit and Control Committee, who will report to the Board, on the appearance of new Risks, the evolution of the identified Risks the extent of implementation of the approved action plans and the general manner of functioning of the Group's System of Risks Management.
- Inform about the Risks that may have materialized, indicating the circumstances that have motivated them and if the established control systems have worked.

Process Owner:

Employees responsible for the design, process development and detection of Risks and opportunities that may affect them. They are also responsible for the implementation of policies and Internal Control standards. They should identify the Risks of the Process and the Internal Control Activities that have to be performed in order to avoid or reduce those

Risks, as well as monitoring them and supporting and reporting to the Internal Control Coordinators.

Internal Control Coordinators:

They are responsible for promoting the implementation, development and coordination of the Internal Control System. Generally, this function will be occupied by financial officers of the Business and Corporate Management that makes up the Group.

Control Owner:

Employees responsible for carrying out the Control Activities defined in the Internal Control System and for informing the Process Owner, through reporting, of their results. When appropriate, they must suggest improvements and corrective measures to improve the design and effectiveness of the Control Activities, and they must at all times follow the directives in relation to the Risks Management.

E.3 State the primary risks, including tax compliance risks, and those deriving from corruption (with the scope of these risks as set out in Royal Decree Law 18/2017), to the extent that these are significant, which may affect the achievement of business objectives.

In the Group Risk Map, the following Risks were identified, among others, which are classified according to its category as stated at the Risks Management Policy of Logista Group:

Environment Risks:

- Group's business could be adversely affected by the deterioration of the economic conditions, habits and consumption behaviour in the markets in which it operates (mainly Spain, Portugal, France and Italy).
- Tobacco illicit trade and contraband affecting in distributed tobacco volumes.
- Any future significant tax increase (eg: VAT and excise duties) or Tobacco price increase could have a negative effect on the business, as it would generate a drop of consumption and increase of illicit trade, and worsen the prospects or the financial situation and the operating result.

Business Risks

- Liberalization in the main markets where the Group operates as tobacco products authorized distributor where currently exists a State monopoly for retail sale of these products could affect results, if the measures already planned by the Group were not implemented.
- The growth strategy of the Group relies, among others, on other business activities different from tobacco. As long as the Group won't be able to achieve a sustainable increase of that business, the Group results would be affected.

Operational Risks:

- Theft of tobacco in facilities and during transport associated to increases in insurance premiums.
- Technological Risks associated to the lack of (or faulty) availability of the Information Systems.
- Cybersecurity Risk, as the Group is exposed to threats and vulnerabilities due to the

regular use of technologies and information systems in the development of their different activities.

Regulatory Compliance Risks:

- The Logista Group Businesses are subject to compliance of numerous general and industry laws and regulations, with European, national, regional and local reach, in every country where it operates, exposing the Group to potential failures to comply and the corresponding sanctions or claims and, on the other hand, to increasing costs for supervision of compliance and control.
- Penal Risk (commission of crimes within the company and/or in the benefit of the Group) or Risks associated to litigation in which the Group is currently part, either as plaintiff or defendant.

Financial Risks/ Tax Risks:

- Changes in the group's payment cycles could oblige it to seek external sources of finance to fulfil its obligations: As with any other wholesale business, the payment cycles for products acquired from manufacturers and the collection cycles of the points of sale do not coincide. For this reason alone, the Logista Group's payment to the tax authorities is made in a cycle which is different from that of the manufacturers and the points of sale.
- Risk of impairment of fair value of assets, in relation with goodwill high carrying value.
- Commercial credit Risk derived from the usual business operations with customers.

E.4 State whether the entity has a risk tolerance level, including tolerance for tax compliance risk.

Group Risk Management methodology, is developed according to the following scheme, as described at its Procedure: establishment of objectives and context, identification of potential Risks, Risk analysis, Risk assessment (impact and probability), Risk treatment (assume, mitigate, transfer, eliminate), control and continuous monitoring of the Risk Management process, and information and communication.

On top of that, considers different Risk tolerances when rating gross Risks, both with quantitative and qualitative criteria, and assessing the Risk impact, which allocate each Risk in the general scheme of Risk appetite.

Criteria used by the Group to determine impact are the following: regulatory compliance, financial-economic impact, safety and security, impact in processes and reputational impact.

These criteria, together with ratings over likelihood rating and evaluation of Risks tolerance for each Risks identified, are added to the tools used for Risk Management (Risk Register and Risk Map), in order to report and monitor and adequate follow-up of key Risks by the corresponding bodies.

The Risk Management Policy defines the position of the Company regarding the Risk typology, including tax-related Risks.

The Group has a low tolerance towards the Risk in what concerns to policies, laws and regulations compliance, including tax regulation.

In general, due to the particularity of the business and the markets where the Group is

present, it has a moderate Risk profile, therefore Risk Management has to be done considering the following:

- a) Achieve those strategic objectives defined by the Group, keeping a level of uncertainty under control.
- b) Maximize the level of guarantee to shareholders.
- c) Protect Group financial results and reputation.
- d) Take care of stakeholders interests (shareholders, customers and manufacturers).

Highlight that in the strategic Group framework, providing high added value logistical services with a high level of technological innovation, the Group presents higher level of tolerance considering the technological Risks that could occur.

E.5 State which risks, including tax compliance risks, have materialised during the year.

Risks materialized throughout the year are regular operational Risks, in the ordinary course of business, particularly theft of tobacco in the company facilities and during transport, not affecting the Group's financial results as the merchandise was properly insured, and also, liabilities for the resolution of fiscal litigation processes, ruled against the Group, not affecting significantly the Group's financial results, as these were properly provisioned, as well as other litigations of non-fiscal character.

In both cases the established control systems have allowed their mitigation, either the impact of Risk, neither its probability of occurrence. In general, the Internal Control and Risk Management Systems of Logista Group have allowed the allocation of several Risks in a low Risk profile, moreover some of them have been finalized without negative impact for the Group.

On April 10th, 2019, the National Commission for Markets and Competition imposed on Compañía de Distribución Integral Logista, S.A.U. ("Logista"), (100% subsidiary of the Company), a penalty of € 20.9 million, for "exchange of sensitive information regarding the sale of cigarettes from 2008 to 2017". Logista does not consider the sanction appropriate, and has filed against said resolution, an administrative contentious appeal before the National Court, and request for suspension of the payment of the sanction, which as of the date of this Report, is pending resolution.

Additionally, in the current year, Risks derived from the macroeconomic, social and political situation have materialized, especially those derived from the tax increase in France which routes the price of the package to 10 euros by 2020; its impact on sales volumes has been partially absorbed by restructuring plans, as well as the impact on the part of the manufacturers of said increases in the sale price, which causes a revaluation of inventories.

E.6 Explain the response and monitoring plans for all major risks, including tax compliance risks, of the company, as well as the procedures followed by the company in order to ensure that the board of directors responds to any new challenges that arise.

The methodology to elaborate the Group Corporate Risk Map, based on the individual Risk evaluation of the businesses, forces the evaluators to assess the Risks before and after considering the mitigating controls and action plans established for each case, ending up with the residual Risk classification (Severe, High, Moderate or Low). The Risk Management Procedure of Logista Group states that, for each residual Risk, it will be decided which action has to be done (Eliminate, Mitigate, Transfer or Assume), and also an action plan will be defined.

See below the main existing controls for the Risks identified in the E.3 section:

Environment Risks

- The markets most affected by the poor economic evolution, and the Businesses most exposed to its customer credit Risks, are reinforcing the procedures for the recovery of debts to shorten the terms, as well as reducing and tightly monitoring the credit limits, fostering the obtaining of bank guarantees.
- Regarding tobacco illicit trade and contraband, the Group is developing projects together with the manufacturers to establish more demanding track and trace protocols, in compliance with the European Directive of April, 3rd 2014.

Business Risks

- The effect of liberalizing the main markets in which the Group operates as tobacco-related products authorized distributor where currently there is a State monopoly for retail sale would, if there is a negative effect, mitigated by the business diversification strategy followed by the Group, and the capacity to sell tobacco through the large capillary point of sales network.

Operational Risks

- Theft of tobacco in the company facilities and during transport.

The following measures reduce both the impact and the likelihood to a tolerable Risk level:

- ✓ Follow up of maximum security standards.
- ✓ Insurance Policies.

Technological Risks

- ✓ Existence of Contingency Plans periodically tested to assess their effectiveness.
- ✓ There are permanent monitoring activities of the service level agreements according to the supplier that provides and administrates the Group infrastructures.

Cybersecurity Risk

- ✓ Preventive work of digital surveillance.
- ✓ Bi-annual external intrusion test and internal for new web applications.

Regulatory Compliance Risks

- The Corporate Legal Department centralizes the supervision of the most relevant contracts within the Group, to ensure that they strictly comply with Laws, and that the third parties contracting with the Group's companies comply with the principles of the Code of Conduct.
- In relation to Compliance and Crime Prevention within the Group's companies, the following controls currently exist:
 - ✓ The Group has a Code of Conduct and periodically asks employees to undertake mandatory training on its contents.
 - ✓ The Group has an Internal Channel for denounces and irregularities, with policies and procedures available to every employee in the Group intranet.

- ✓ There are Policies for investment, expenditures, indebtedness and other transactions, that require a strict approval and communication workflow.
- ✓ Also, adapted to the specific characteristics of the penal codes in Spain and Italy, in addition to the Group Code of Conduct, there are specific Manuals for crime prevention in these countries according to which, in case of lack of compliance with the controls and general behaviour principles stated in them and in the Group Code of Conduct, disciplinary actions could be taken against the offenders.
- ✓ There are specific procedures for preventing money laundering in the Group, being the Regulatory Compliance Director the body in charge addressed as the valid interlocutor with the SEPBLAC.

Financial/Tax Risks

- Regarding the goodwill high carrying value, the Group undertakes impairment tests according to the IFRS.
- Credit Risks mitigated by periodical credit controls, hiring insurance policies in order to mitigate possible impacts of unpaid credits in the commercial transactions.

Regarding the procedures followed by the Company to ensure that the Board of Directors responds to the new challenges that arise, the Audit and Control Committee supervises twice a year the evolution of the different key Risks, as well as its response strategies and associated mitigation plans, including fiscal ones, and approves and issues the Group Risk Map Update. In those two quarters in which the said complete update is not presented, the Audit and Control Committee is informed about the most significant changes in the main Risks, which allows identifying new threats, as well as managing Risks in advance. Said Committee reports quarterly to the Board of Directors on its work of supervision of the Control and Risk Management Systems.

Likewise, the Board of Directors is specifically and periodically informed about the Group's main Risks, their evolution, response strategies and their associated mitigation plans, by the Corporate Internal Audit Department.

In addition, the Corporate Internal Audit Directorate has, among others, the following functions, competencies and responsibilities, defined in the Internal Audit Policy, which has been updated this year:

- Evaluating whether the procedures, activities and objectives of Internal Control which constitute the Group's Internal Control System are appropriate, effective and efficient, and whether they assure to the Group, the Audit and Control Committee and the Board of Directors an effective supervision of the Risk and Control Management System, and promoting, directly or through the Internal Control Directorate and/or the Internal Control Committee of the Group, recommendations for their strengthening.

- **Departments and/or mechanisms in charge of: (i) design and review of corporate structure; (ii) clear definition of lines of responsibility and authority with an adequate distribution of tasks and functions; and (iii) assurance that adequate procedures exist for proper communication throughout the entity.**

According to Article 6.2 of its Rules, the general purpose of the Board of Directors of the Company is to determine and supervise the Company business and financial objectives, agreeing on the strategy, the plans and the policies by which to achieve them, propelling and supervising the management of the Company and the achievement of the established objectives, and ensuring the existence of adequate management and organisation, under effective supervision of the Board.

Notwithstanding the foregoing, the policy of the Board of Directors is to delegate the ordinary management of the Group to the Executive Bodies and the Management Team, except in those matters that, according to the Law, the By-Laws or the Board's Rules, cannot be delegated.

For this reason, the Appointments and Remunerations Committee has the responsibility, among others, to advise on the proposals for the appointment or severance of senior directors which the Chief Executive proposes to the Board.

The roles of the Senior Management include, among others, to acknowledge, inform and, if it is the case, propose and approve, modifications to the organisational structure of the Group, for the purpose of identifying needs, inefficiencies and areas for improvement in the design of those structures, and the definition of the lines of responsibility and authority, and the appropriate distribution of tasks and roles.

The Corporate Directorate of Human Resources has procedures for updating the organisational structures at corporate level and of each of the Logista Group subsidiaries. These procedures are documented in organisation charts, which show the lines of authority up to a certain organisational level.

The Logista Group has a range of internal regulations governing the allocation and division of responsibilities and the segregation of functions in the different areas of the Group. Also, the Logista Group has job descriptions where main responsibilities of each job positions are described.

Specifically, the Corporate Financial Directorate has organisation charts showing the composition of the Financial Departments of each of the subsidiaries and business units; it also has regulations and procedures containing information about the tasks carried out by the different members of those departments, and information about the responsibilities included in the jobs of the key personnel involved in the preparation of the financial statements.

Dissemination is through the corporate Intranet which is used for internal communications, and through which the Logista Group regulations and procedures, as well as information about the most important changes occurring in the organisational structure, are disseminated. - **Code of conduct, the body approving this, degree of dissemination and instruction, including principles and values, (state if there is specific mention of transaction recording and creation of financial information), a body charged with analysing breaches and proposing corrective actions and sanctions.**

Code of conduct

The Logista Group adopted the Code of Conduct issued by its Controlling Shareholder, Imperial Brands PLC, which has been approved by its Board of Directors. There is, in addition, a Code of Conduct which applies specifically to the Logista Group companies in Italy (the 'Código Etico'), approved by the Board of Directors of Logista Italia, S.P.A., within the framework of Legislative Decree 231/01, which governs the regulation of compliance in the matter of criminal Risks, and which describes in detail all the processes of the Logista Group Italian companies, including the preparation of financial information, which are in turn analysed by the governing and control bodies legally required in Italy.

The Logista Group Code of Conduct may be consulted on its Intranet. For those employees who do not have a computer or other type of electronic device, a summary leaflet is delivered in which the main characteristics and ethical principles of the Code of Conduct are presented.

All the employees of the Logista Group have to commit themselves to its compliance and as a prove of that, they must sign a 'recognition' document, confirming that they have read the Code of Conduct and will observe its provisions. Logista has versions of this document in English, Spanish, French, Italian, Portuguese and Polish, so that it can be correctly disseminated and understood in all the countries in which it operates.

The Code of Conduct lays down the principles of responsible behaviour which all the employees have to observe, and offers a practical guide to the way in which important ethical and legal matters should be dealt with. As fundamental values, it includes business integrity, responsible commercial practice, trust, respect and responsibility. Each of the general principles is elaborated on in the body of the Code.

In particular, within the principle of responsible commercial practice, there is a section on accuracy in accounting and the keeping of financial records and notifications, of which the main obligations are explained below:

- To report and record all our financial information accurately and objectively.
- To ensure that accurate and complete financial and commercial records are kept.

- To co-operate openly with the Logista Group Compliance Department and with our external auditors.
- To strive to identify any potentially erroneous representation of the accounts, data or records, or any occurrence of potential fraud or deception, and to inform the local, regional or departmental heads of finances, the Director of Accounting, Forecasting and Taxation or the Logista Group Compliance Manager of any worry or doubt about the accuracy of the financial reports.

Any new incorporation must carry out a training course, which is mandatory, on the Code of Conduct, consisting of the practical explanation of different axioms defined in the Code of Conduct, as well as a final exam. Likewise, it is mandatory to carry out specific training courses for the prevention of Criminal Risks in Spain and the Legislative Decree in Italy, in order to provide the employee with a vision of the main Criminal Risks, as well as of the behaviors expected by them.

The Code of Conduct itself and its complaints procedure lay down a procedure for notifying, recording and investigating possible breaches of the Code of Conduct as well as the principles of the investigations and the disciplinary measures, including dismissal, and the rights of appeal.

General Principles of Conduct of suppliers of the suppliers of Logista Group.

The Board of Directors of the Logista Group, in its session of April 30th, 2019 approved the issuance of the General Principles of Conduct of the suppliers of the Grupo Logista, available on the corporate website, in which they are exposed as commitments, of binding effectiveness for the Logistic Group and of necessary assumption by the Suppliers that contract with the Group.

Within the scope of the ICFR, we emphasize the Principle of Accounting and Financial Records: "The Logista Group Suppliers fulfill their obligations regarding accounting and maintenance of financial records in a precise, honest and objective manner, in accordance with the legislation and regulations accountant".

Responsible bodies

The body ultimately responsible for these activities is the Audit and Control Committee itself, who in its Regulation states as part of its responsibilities the supervision of compliance with corporate governance rules and the Internal Codes of Conduct of the Company.

In particular, the Audit and Control Committee shall (Article 5 (v) b (i)):

- Supervise compliance with the Internal Codes of Conduct of the Company, particularly with the Internal Securities Market Code of Conduct, the Regulations and the Logista Group's governance rules, as well as putting forward proposals for its improvement.
- **Whistleblower channel, that allows notifications to the audit committee of irregularities of a financial and accounting nature, in addition to potential breaches of the code of conduct and unlawful activities undertaken in the organisation, reporting, as the case may be, if this is of a confidential nature.**

The Regulations of the Board of Directors assign the Audit and Control Committee the responsibility of establishing and supervising a procedure that allows the Logista Group's employees, confidentially and, if appropriate, anonymously, to report irregularities of potential importance, especially financial and accounting, that can be detected within the Company.

The Logista Group has a Policy and Procedure on Complaints of Malpractice ("Whistleblowing"), which was approved by the Board of Directors on April 26th, 2016.

This Policy formalizes the existence of a channel for denouncing behaviour, deeds, actions, omissions or failure to observe the principles, ethical values, laws and internal regulations applicable to the Logista Group, and establishes the general principles which govern the notification of the complaint, as well as the subsequent actions that have to be taken by the Logista Group as a result of such a notification of complaint. The procedure develops the aspects or premises which require the Implementation and execution of the Policy. The Procedure develops the aspects or extremes required by the implementation and execution of the Policy, as well as the means of communication of complaints (either verbally, or in writing to the email address denuncias@logista.es or by ordinary post).

One of the bodies competent to receive complaints and to investigate cases of malpractice is the Audit and Control Committee, when if, in the conduct, deeds, acts, omissions or non-compliance which constitute(s) the Malpractice, the participation or direct or indirect involvement of any Member of the Board, including its Secretary, or of a Company Director, or of the General Manager of a Business, is deduced, immediate report will be given by the Secretary of the Whistleblowing committee or Internal Control Unit, to the President of the Audit and Control Committee, or if implicated, to any member of the Board of that Committee.

Also, the Procedure states that the Directorate of Corporate Internal Auditing will prepare a report on cases that are relevant, of significant importance, of a financial or accounting nature, or serious, which will be forwarded to the Audit and Control Committee, which will, in addition, supervise the general observance of the Logista Group's Policy on Complaints, and of the provisions of this Procedure.

With regard to the confidentiality of complaints, the Policy states as one of its key principles the guarantee of Confidentiality and, as far as the applicable local legislation allows, the anonymity of the complaint.

The identity of the 'whistleblower' will not be disclosed to anyone other than the Bodies Competent to receive and investigate a complaint of Malpractice, in any of the stages of the Investigation Procedure, nor will the said identity be revealed to third parties or to the people being investigated. At the time of receiving a complaint, it is encoded, so that the nominative relationship of the complainant-denounced disappears. Likewise, the minutes of the Complaints Channel Committee, as well as, where appropriate, the documentation provided, are anonymized, once the conservation periods established in the General Data Protection Regulation ("GDPR") have elapsed.

As an exception, and under the applicable regulations, the identity of the 'whistleblower' can be revealed to the Administrative or Legal Authority which is handling the investigation procedure initiated by or resulting from the complaint of Malpractice.

- **Training and periodic refresher programmes for staff involved in the preparation and revision of financial information, as well as assessment of the ICFR (internal control system for Financial Information), that covers at least accounting rules, audits, internal control and Risk Management.**

Within the system for annual performance management assessment, personal development is encouraged, and any need for training in the said subjects is detected and then reflected in the Annual Training Plan.

The Human Resources Department, in collaboration with each of the business units, is responsible for defining the Logista Group Annual Training Plan, in which the training needs of the staff, including those involved in the generation and issue of financial information, and the Internal Control and Management of Risks, are identified.

In this way, training courses are given annually to those of the staff who are involved in the preparation and reviewing of financial information. Specifically, external training has been given on the following subjects: Adobe experience manager, process analysis, CESCO certification, CIA certification, fiscal and accounting closure, Internal Control of Financial Reporting, definition and implementation of Risk appetite, speech and influence Internal auditors, segregation of duties, external evaluation of audit quality internal, fundamentals of project management, Risk Management in the area of HR, implementation of the Risk process, negotiation, time management, methodology for the analysis of privacy Risk and data protection, monograph on consolidation of financial statements, Microsoft Office (formulation, macros, pivot tables, database management), power BI, money laundering prevention and internal audit evaluation technician.

F.2 Assessment of financial information risks

Report on at least the following:

F.2.1. The main characteristics of the risk identification process, including error and fraud risk, as regards:

- **Whether the process exists and is documented.**

The Logista Group has a specific selection of policies for the process of identifying Risks in the Group, specifically:

The "General Policy on Internal Control" has the purpose of establishing a model or general framework of action of the Logista Group for Control and Management of external or internal Risks of whatever kind, which could affect the Group.

The "Internal Control Procedure" defines and regulates the Control activities that the Logista Group must follow, to avoid or attenuate these internal and external Risks.

Also, the "Risk Management Policy" and the "Risk Management Procedure" describe Risks Management as an interactive and continuous process, incorporated into strategy and planning process. The Policy and the Procedure together define the basic principles and methods to be followed in the Group, and they are reflected in the Logista Group Risks Map.

In the methodology used for Risks Management implemented in the Group, during the phase of identification and prioritization of Risks, those Risks of a financial nature are considered; among these, the Risks of fraud and Risk of error in valuation and financial reporting are considered to be relevant when categorizing the financial Risks.

The Risks Management process is reflected in a Risks Register, which is prepared from assessments of the impact and probability of each Risk, made by those responsible for the processes in all the Logista Group companies, who take into consideration variables both quantitative and qualitative.

Its output is the Logista Group Risks Map: there is a consolidated Risks Map of the Logista Group and also there are maps of specific Risks for each Company and Business unit or Corporate Directorate, linked to key Business and Corporate Directorates' processes.

There is also an inventory of specific Risks of financial information, classified by categories, including error and fraud categories, both external and internal.

- **If the process covers all of the objectives of financial information, (existence and occurrence; completeness; valuation; delivery; breakdown and comparability; and rights and obligations), whether it is updated and with what frequency.**

Additionally, on an annual basis, Internal Control Department makes an assessment, by each Business and Company, of the significant accounts, both at quantitative and qualitative level, which are later on linked to the different processes, and which results are gathered in what is denominated as ICFR Scope Matrix, which determine relevant process for ICFR purposes.

Taking the Scope Matrix as a reference, the Group develops the identification and description of each of the transactional Risks in the processes that are relevant for the purposes of the ICFR. This analysis is documented at the ICFR Risks and control matrix.

The Corporate Financial Directorate developed in 2016 an instruction for "ICFR documentation", in which premises to be followed are exposed in order to guarantee an adequate documentation maintenance. More explicitly, it is reflected that the review of these documentation must be a continuous and constantly updated process. Nevertheless, at least annually, at the beginning of the fiscal year, Internal Control Coordinator will do a general review of the documentation in order to guarantee a proper maintenance and communication. In case no update needs to be done to the current documentation, this fact will be communicated both to Internal Control Department.

- **The existence of a process for identifying the scope of consolidation, taking into account, among other factors, the possible existence of complex company structures, shell companies, or special purpose entities.**

The Logista Group consolidation perimeter is determined monthly by the Financial Corporate Directorate, based on the "Annex 23-Consolidation Procedure" of the "Finance Accounting Manual, Consolidation and Reporting of Logista Group and its Subsidiary Companies. This Procedure establishes the system to be followed to define the consolidation perimeter and to ensure that it is correctly updated, so that nothing is omitted from the consolidated financial information.

In the Group consolidated financial statements at the close of the financial year, in accordance with the methods of inclusion applicable in each case, all those companies belonging to the Logista Group, joint businesses and companies associated with it were included in accordance with the content of the IFRS. For that purpose, the Consolidation Department has a detailed checklist of all the companies belonging to the Logista Group, and carries out a specific, regular analysis of the consolidation criteria to be applied.

- **If the process takes into account the effects of other types of Risk (operational, technological, financial, legal, tax, reputational, environmental, etc.) to the extent that they affect the financial statements.**

The Logista Group has also introduced a Model for the Prevention of Criminal Risks, covering the legal Risks considered in the Manual for the Prevention of Offences, and also a Crime Prevention System in their Italian subsidiaries to comply with Legislative Decree 01/231.

In the process of identifying Risks, according to these categories, the possible effects derived from the materialization of said Risks are taken into account.

The Logista Group has an "Accounting Policy Manual", issued by the Corporate Finance Directorate, which defines a series of manual and automatic checks that are used to verify financial information, prevent fraud, the Risk of error, and ensure compliance with current legislation and the generally accepted accounting principles. There is also a formal procedure for accounts closure in which the financial information is prepared by each economic/financial manager of each subsidiary company or business, which is verified by the Consolidation and Reporting Department, and approved, before publication, by the Logista Group Finance Corporate Directorate. It is also checked by the external auditors. Finally, it is analysed by the Audit and Control Committee, which reports to the Board of Directors, the latter being the body which finally approves it and agrees to its publication and dissemination to the markets, as explained in section F.1.1.

In addition, every quarter, the Financial Directors and Controllers of the Logista Group Businesses and/or Companies issue a certificate in which they declare that the Logista Group General Policy on Internal Control has been complied with as regards reconciliation of key accounts and controls. Every year, they also issue a representation letter in which they certify:

- All transactions and events, as well as any material post balance sheet events, have been recorded appropriately, in line with financial and non-financial reporting requirements, to give an accurate view of the state of affairs within their area of responsibility.

Descriptive documentation of activity flows and controls:

Furthermore, and with regard to the documentation describing the flows of activities and controls of the different types of transaction which can materially affect the financial statements, the Logista Group has prepared the required documentation which describes the control activities which cover all the purposes of controlling financial reporting for the Logista Group, by means of its corresponding ICFR Risk and control matrix, narratives and flowcharts ("ICFR Documentation"), in accordance with the recommendations made by the CNMV, in its Internal Control Guide on Financial Information in Listed entities, issued in 2010.

The aforementioned ICFR documentation is configured based on control objectives for each Risk, whose achievement must allow to achieve reliability and transparency in the process of preparing the Financial information, which are intrinsically linked to the defined Control

activities resulted to be efficient in all its terms in each of the material processes for the ICFR. In this context, the ICFR F Documentation contains information about, among others matters, the Control activity, the Risk to be mitigated, the frequency and the person responsible for its implementation, its level of automation, as well as the definition of critical controls and Fraud controls aimed at ensuring the proper registration, valuation, presentation and breakdown of transactions in non-financial information.

The IFCR Documentation has been developed both for the material corporate processes (general accounting, consolidation, fiscal management, Treasury, Human Resources and purchases of non-inventory assets, mainly), as well as for those relevant Business / Country operational processes for the IFCR, such as purchases, sales, stock and logistics services.

Said IFCR Documentation is periodically updated, both by the Internal Control Department, as well as by those responsible for said documentation, through their self-assessment, as established in the Instruction on the "Internal Information Control Documentation Financial", mentioned in section F.2.1, which allows confirming the validity and validity of the IFCR Documentation.

With regard to the specific review of the relevant opinions, estimates, valuations and projections, the Logista Group, as part of their Accounting Manual, has an specific annex about financial Provisions which describes the manner of dealing with each of the provisions which the companies in the Logista Group may make, and which is designed to reduce the risk of error in processes related to specific transactions.

Additionally, the Corporate Financial Director presents to the Audit and Control Committee, in order to facilitate said Body the review of regulated financial information, a detail with the main estimates and valuations made in the period under supervision, as well as the main ones hypothesis or methodology used for these estimates.

F.3.2. Internal IT control policies and procedures (access security, change controls, their operation, operational continuity, and segregation of duties, among others) which support relevant processes within the company and relate to the creation and publication of financial information.

The Logista Group uses information systems to keep an adequate record and control of its operations, so their correct functioning is crucial for the Logista Group.

The Management of Information Systems within the Management of Corporate Resources is responsible for the Logista Group information and telecommunications systems. Among its functions is that of providing the Information Systems Department with a set of policies, procedures and technical and organizational means to ensure the completeness, availability, confidentiality and continuity of the corporate information, including the financial information.

The regulations ,available to all the employees through the Logista Group intranet and relating to the Internal Control of the Information Systems, is mainly formulated by the following internal Rules, some of them have been updated during the current year, and consist of:

- The General Policy on Internal Control
- The strategic framework of the Information Systems
- The General Security Policy for the Information
- The Security Procedure for the Information
- The Technical Instruction for Roles Redesign.

The General Policy on Internal Control establishes the guidelines and directives relating to the management of the Risks associated with the management and use of information systems and, specifically, estates that the Group's Information Systems must be controlled in order to guarantee their proper functioning and ensure control of the various types of transactions.

The General Security Policy for the Information formulates a reference framework and a set of guidelines and general principles that must be followed by all the Organization, to guarantee the Security of the Group's information and systems and other non-technological assets that it manages, as well as to determine the bodies responsible for it.

General Security Information Procedure, which develops, the mentioned Policy, as part as their provisions, estates, among other, the following premises:

- **MANAGEMENT AND CONTROL OF ACCESS TO THE LOGISTA GROUP INFORMATION SYSTEMS**, whose general aim of the procedures and measures provided for in this Provision 6 is to anticipate and, as far as possible, prevent unauthorized access to the Logista Group Information, and to:
 - i. Establish a procedure for granting Users rights of logical access to the Logista Group Information Systems, and for modifying and revoking them when the User changes job or ceases to provide services to the Logista Group, respectively.
 - ii. Define the identification requirements of an authorized User to access the Information Systems.
 - iii. Establish specific control measures for access to Group Network Services and source codes.

Explicitly, in this section, it is described the control procedure for changes to Business Applications within Logista Group, and the management on changes in standard market software packages.

- SECURITY IN OPERATIONS, in order to maintain and manage the processing of Information and Information Systems in the Logista Group on a continuous and secure basis, and to guarantee that the technological services provided by the Corporate Directorate for Information Systems are being provided normally, the operational procedures necessary for this purpose (such as those relating to backups and recovery of Systems, monitoring, task planning, installation and configuration of Systems, etc.) are documented by this Department. Additionally, in this Procedure there is a specific section concerning Communications Security Management (Network Infrastructure Security Management, Network Device Security, Firewall Policy, and Wireless Networks).
- CONTINUITY AND REDUNDANCY IN INFORMATION SECURITY, which describes the requirements to ensure the continuity of the Systems during any major event or disaster that may occur, including the continuity of Information Security in said Systems; the availability of the Technology Infrastructure in terms of redundancy, and the continuity of the functions of the different businesses of the Logista Group, including the Information Security managed by them.

Regarding Segregation of Duties, the Logista Group has designed and implemented a matrix for the segregation of functions, which segments the privileges of the users according to the minimum resources and information that are indispensable for the correct performance of the tasks associated with the workstations in the users' areas. In addition, and to complement the matrix for the segregation of functions, a set of measures and/or activities complementary to the segmentation of privileges has been established, such as the inclusion in the model of a group of users with greater privileges, with the aim, after an express request and while keeping track of the operations carried out, of supporting the operations of the corresponding users' area.

Finally, the Technical Instruction for Roles Redesign defines the specific guidelines that should be taken into account when designing the roles, their classification, their nomenclature and the structure they should have, existing a classification and nomenclature specifically for those "SOD Roles", which are those containing critical transactions managed by the Segregation of Duties Model.

F.3.3. Internal control policies and procedures intended to guide the management of subcontracted activities and those of third parties, as well as those aspects of assessment, calculation or evaluation entrusted to independent experts, which may materially affect financial statements.

For the current financial year, none of the processes resulting in the collection of financial information with a material impact on the individual or consolidated financial statements of the Logista Group have been externalised, so the Logista Group has not required reports about the effectiveness of the controls established by entities outside the Logista Group, other than the requirements of the policies for contracting third parties which the Logista Group uses in its Purchasing Policy.

However, as the result of the valuations is not significant, the Logista Group does repeatedly use reports of independent experts for the valuation of certain commitments to employees' benefits, and for the valuations of certain properties.

The Finance Corporate Directorate monitors the work of those experts in order to check: competence, training, accreditation and independence, the validity of the data and methods used, and the reasonableness of the hypotheses used, if applicable.

The functions of the Management of Consolidation and Reporting, belonging to the Finance Corporate Directorate, are to define and communicate the accounting policies and keep them up-to-date, and it also has to answer enquiries about the accounting standards and their interpretation.

The Management of Consolidation and Reporting keeps abreast of changes in the accounting standards by means of communications with the external advisors and through the training which they themselves receive. These changes have to be analysed, and when they are applicable, the Accounting Policies defined in the accounting manual have to be updated.

The issue of all types of accounting standards is centralised in the Finance Corporate Directorate through their Management of Consolidation and Reporting department, which will be responsible for following and, if appropriate, applying, the modifications published in the regulations.

The Logista Group has a Manual of Accounting Policies, issued on October 9th 2015 and last update on 2017, with the purpose of establishing and describing the accounting policies and the Accounts Plan to which the financial information of all the Logista Group companies, the management information and the formation and formulation of the Logista Group Individual and Consolidated Annual Accounts must mandatorily be submitted.

The Manual contains and explains the key Good practices of Internal Financial Control of the Group; the rules of registration and valuation and accounting of the most significant elements of the assets and liabilities of the Group's Accounting; the rules for preparation the Financial information, and how they should be applied to the operations carried out by the Group; the consolidation and reporting rules, and in particular, contain different annexes for each of the headings of the financial statements and other areas of special relevance, such as the treatment of long-term incentive plans and recording of provisions, for example.

F.4.2. Measures for capturing and preparing financial information with consistent formats for application and use by all of the units of the entity or the group, and which contain the main financial statements and notes, as well as detailed information regarding ICFR.

The Logista Group main ERP tool is the 'SAP', which is used to record, at individual level, the accounting transactions from which financial information is obtained for the subsidiaries of the Logista Group. All the companies which constitute the Logista Group work in accordance with the same plan of accounts, which is homogenous and common to the whole Logista Group, contained in the Accounting Manual.

The consolidated financial statements are prepared centrally from the financial statements which are reported in the established format by each of the Logista Group subsidiaries. To do that, the Logista Group has HFM consolidation software, which the Logista Group subsidiaries and companies use for reporting, and which enables the data to be aggregated, homogenised and analysed at individual and consolidated levels. In the consolidation process, there are checks to ensure the correctness of the consolidated financial statements.

In addition, the Consolidation and Reporting Department, as part of the Accounting Manual, has developed a series annexes– such as the procedures for consolidation, for inter-company transactions and for reporting, which are applicable to all the companies which constitute the Logista Group – which establish the mechanisms for collecting and preparing financial information in homogenous formats, the general rules, rules for the insertion of entries, for the approval of manual entries, opinions and estimates (including valuations and relevant projections) and a system for communicating financial information to the senior management and ensuring the homogeneity of the process of drawing up financial information.

This particularly applies to independent directors and directors who are unaffected by a potential conflict of interest if the decision could be detrimental to any shareholders not represented on the Board of Directors.

Furthermore, when the Board of Directors makes significant or repeated decisions about which the director has serious reservations, the director should draw the appropriate conclusions and, in the event the director decides to resign, explain the reasons for this decision in the letter referred to in the next recommendation.

This recommendation also applies in the case of the secretary of the Board of Directors, despite not being a director.

Complies Complies Partially Explanation Not Applicable

24. That whenever, due to resignation or any other reason, a director leaves before the completion of his or her term, the director should explain the reasons for this decision in a letter addressed to all the directors of the Board of Directors. Auditors' report on the "Information relating to the System of Internal Control over Financial Reporting (ICFR)" of Compañía de Distribución Integral Logista Holdings, S.A. for the fiscal year ended on September 30th, 2019

This version of our report is a free translation of the original, which was prepared in Spanish. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information, views or opinions, the original language version of our report takes precedence over this translation.

Auditors' report on the "Information relating to the System of Internal Control over Financial Reporting (ICFR)" of Compañía de Distribución Integral Logista Holdings, S.A. for the fiscal year ended on September 30th, 2019

To the Directors of Compañía de Distribución Integral Logista Holdings, S.A.:

In accordance with the request of the Board of Directors of Compañía de Distribución Integral Logista Holdings, S.A. ("the Entity") and our engagement letter dated April 16th, 2019, we have applied certain procedures to the accompanying "Information relating to the ICFR" of Compañía de Distribución Integral Logista Holdings, S.A. for the fiscal year ended on September 30th, 2019, which summarises the internal control procedures of the Entity in relation to its annual financial reporting.

The Board of Directors is responsible for adopting the appropriate measures in order to reasonably guarantee the implementation, maintenance and supervision of an adequate internal control system and for making improvements to that system and for preparing and establishing the content of the accompanying information relating to the ICFR system included in section F) of the accompanying Annual Corporate Governance Report (ACGR).

It should be noted in this regard, irrespective of the quality of the design and operational effectiveness of the internal control system adopted by the Entity in relation to its annual financial reporting, that the system can only permit reasonable, but not absolute, assurance in connection with the objectives pursued, due to the limitations inherent to any internal control system.

In the course of our joint audit work on the financial statements and pursuant to Technical Auditing Standards, the sole purpose of our assessment of the internal control of the Entity was to enable us to establish the scope, nature and timing of the audit procedures to be applied to the Entity's financial statements. Therefore, our assessment of internal control performed for the purposes of the aforementioned audit of financial statements was not sufficiently extensive to enable us to express a specific opinion on the effectiveness of the internal control over the regulated annual financial reporting.

For the purpose of issuing this report, we applied exclusively the specific procedures described below and indicated in the *Guidelines on the Auditors' Report on the Information relating to the System of Internal Control over Financial Reporting of Listed Companies*, published by the Spanish National Securities Market Commission on its website, which establishes the work to be performed, the minimum scope thereof and the content of this report. Since the work resulting from such procedures has, in any case, a reduced scope that is significantly less extensive than that of an audit or a review of the internal control system, we do not express an opinion on the effectiveness thereof, or on its design or operating effectiveness, in relation to the Entity's annual financial reporting for the fiscal year ended on September 30th, 2019 described in the accompanying information on the ICFR system. Therefore, had we applied procedures additional to those established in the aforementioned Guidelines or performed an audit or a review of the internal control over the regulated annual financial reporting, other matters or aspects might have been disclosed which would have been reported to you.
